TROLLEY STRIKE FEARED.

Men Reiterate Demands in Connecti-
cut.

New Haven, Conn., May 3.—With the possibility that unless concessions are made by one or the other side in the meeting the conference between the representatives of the trolley men and officers of the Connecticut company relative to the wage increase demanded may be followed by the calling of a strike on the trolley lines of the company in this state, the meeting is awaited with intense interest. It is understood that the trolley men will be again present, and the feeling among the men is that there will probably be a strike.

Dennis S. Fitzgerald, member of the trolley men's international executive committee, regards the situation as very serious. He says:

"I regard the situation as bad as it was in Philadelphia at the beginning of the strike there. Both Ben Orr, international treasurer, and myself will appear here in an advisory capacity before Vice-president Towley and General Alexander Funderburk, of the Connecticut company and will reiterate the demand for a maximum wage rate of 27½ cents an hour on a five years' basis, and failing in securing this demand, will then call for arbitration on the thirty cents an hour basis originally demanded by the men."

Mr. Fitzgerald said that if this latter is not granted that the local men's rejection of the twenty-six cents an hour offer by the company was equivalent to a strike decision and that a strike could then be called at any time.

PROMPT CONFIRMING

Given Hughes' Nomination to Supreme
Court Bench.

Washington, D. C., May 3.—To Governor Hughes yesterday awarded the compliment of confirmation by the Senate for the high office of justice of the supreme court immediately after his nomination had been reported from the committee on the judiciary. The nomination was acted upon by the committee during the forenoon and its Senator Dewey of that committee was assigned the duty of presenting the report of the Senate.

Desiring that there should be no delay, Mr. Dewey took the precaution of personally visiting all the senators, who for one reason or another might ask to have the nomination go over for a day in accordance with the usual practice. He represented to them his desire that confirmation should be prompt and unquestioned. He met with no opposition, and when the request for immediate action was made, not a voice was raised against such a course or against confirmation.

The action of the Senate completes the appointment of Governor Hughes to the supreme court bench, and all that is necessary to enable him to take his seat there is the taking of the oath of office.

TAFT DEFENDED
SECRETARY KNOXAt Banquet Given in Pittsburgh Last
Night, Declared That Record of
State Department Was One
to Be Proud Of.

Pittsburgh, May 3.—President Taft ended his two-day stay in Pittsburgh with a speech at the Grant day dinner of the American club last night in which he dealt almost wholly with the foreign affairs of the nation. The president paid a striking tribute to Secretary of State Knox, who was present. He vigorously defended and justified the secretary's Neutrality policy, saying that the policy was "dollar diplomacy" and ended with the declaration that the record of the state department during the first year of the present administration was one to which he pointed with the greatest pride.

Mr. Taft had an exceedingly busy day and was thoroughly tired when he retired on board of his private car last night, preparatory to leaving at 2:30 a. m. for Cincinnati. Consul Von Bernstorff, who was in the presidential party throughout the day, left with the president last night for Cincinnati.

Yesterday afternoon he was a spectator at the Pittsburgh-Chicago hall game. The fact that the president was to attend had been heralded abroad and the result was a crowd which tested the capacity of the tremendous new plant. Mr. Taft had expressed a desire to "sit among the fans" but the local committee took him to box on the second tier of the big steel grandstand, where comparatively few of the spectators could see him. The fact that the president had arrived, however, soon spread throughout the throng and there Von Bernstorff sat with the president. Both paid close attention to the game. Secretary Knox sat in a box next to the president.

Before the game began the president wrote his "best wishes" on two baseballs, signed the spheres and sent them to Hans Wagner and Fred Clarke, of the Pittsburgh team. The joy of the big holiday crowd was complete when Pittsburgh won, 5 to 2.

During his entire stay in Pittsburgh, President Taft was surrounded by hundreds of petitioners and sent them to Hans Wagner and Fred Clarke, of the Pittsburgh team. The joy of the big holiday crowd was complete when Pittsburgh won, 5 to 2.

ROYALTY'S GUESTS
IN COPENHAGENRoosevelts Spent To-day Visiting Places
in That Vicinity, Will Leave
For Norway To-night.

Copenhagen, Denmark, May 3.—The Roosevelt family today visited the sights in this vicinity, notably Elsinore, the supposed site of Shakespeare's "Hamlet." They will be dining by the municipality this evening, and they will leave tonight for Christiania, Norway, arriving tomorrow morning.

The stars and stripes floated above the royal palaces yesterday for the first time in the history of Denmark, and ex-President Roosevelt, in the absence of King Frederick in southern France, was the guest of Crown Prince Christian, whose palace they visited, and the disposition of Mr. Roosevelt and his family.

The prince, presiding at a dinner last evening at the king's residence, thanked Mr. Roosevelt for coming to this court and proposed his health, which was warmly responded to by those around the table, who included the leading personages in the kingdom.

Mr. Roosevelt in reply said that he had received a cordial message from the king and thanked the prince for his hospitality. He then proposed a toast to the king and the royal family of Denmark.

At the reception given by Maurice F. Egan, the American minister, at the legation, the former president met the diplomatic representatives, the cabinet ministers and many persons prominent in the various departments of public affairs.

The crown prince met the party on its arrival from the Netherlands by way of Kiel. He drove with Mr. Roosevelt to the palace and showed him his apartments. The prince then went to his own residence, which is located directly across the avenue. Half an hour later, the crown prince visited the prince and had tea proceeding from there to pay a visit to Prince Waldemar and Prince Hans, the latter being the uncle of the queen of England.

The Danish American society of Chicago, which is carrying on extensive improvement work for the betterment of health in the direction of Jutland, intends to ask Mr. Roosevelt to allow a park to be named after him.

Yesterday both the Boston Dairy company and the New York company had large shipments of milk than they have had before this year.

President of Great Baldwin Locomotive
Works in Philadelphia—He Was
Donor of Converse Dormitory
at University of Vermont.

Philadelphia, Pa., May 3.—John H. Converse, president of the Baldwin Locomotive works, died today at his home in Rosemont of heart trouble. He was a man of wealth and had given liberally to various causes, notably to the university of Vermont, of which institution he was a graduate.

Mr. Converse was born in Burlington, Vt., on December 2, 1846, and was, therefore, in his 70th year. His parents were Rev. John Kendrick and Sarah (Allen) Converse of Burlington, and he attended the public schools and the university of Vermont, graduating from the latter institution in 1869. Mr. Converse was married on July 9, 1875, to Elizabeth Perkins Thompson of Bay Ridge, Long Island.

President Converse was elected vice moderator of the general assembly of the Presbyterian church of the United States in 1900, and he was also a leader in many benevolent and religious enterprises. He was a trustee of the Princeton Theological seminary and of the university of Vermont. He had been a member of the American Philosophical society since 1885.

John H. Converse's chief gift to the university of Vermont is the handsome marble Converse dormitory, which was erected in 1893. He was also a benefactor of the institution in many other ways. He was vice-president of the Philadelphia Alumni association of the university and was a frequent attendant at the commencement exercises.

NUMEROUS LIREL SUITS

Brought by William R. Hearst Against
Newspapers.

New York, May 3.—A crop of libel suits has sprung from the speech of Mayor Gaynor last Thursday evening at the dinner of the Associated Press and the American Newspaper Publishers' association at the Waldorf. Actions for \$100,000 each against the New York Times and the Brooklyn Daily Eagle have already been filed by Clarence J. Shearman, acting for William Randolph Hearst, and more suits were issued yesterday against newspapers in various parts of the country, which published the mayor's speech. Moreover, Mr. Hearst has brought suit against the Associated Press for \$500,000 for sending the speech to its members, including Mr. Hearst's New York American, which published it in full, with the statement that it was furnished by the Associated Press.

One of Mr. Hearst's associates said yesterday that the editor's counsel was considering what action he should take with regard to the mayor himself. No civil suit will be brought against the mayor, it was said, but counsel for Mr. Hearst are trying to decide whether an action for criminal libel will lie.

Mayor Gaynor said he did not charge that the American in publishing a photographic reproduction of a warrant for the payment of \$48,000 to Daniel F. Callahan, Charles E. Murphy's chief adviser in Tammany hall, had committed two state prison felonies, because the date, "December 31, 1909," did not appear in the warrant as reproduced in the newspaper.

company Troops—Terrible Atrocities.

Turkish reinforcements are mobilizing at Smyrna. The Albanians are firmly fixed in the Karadagh mountains. Many Albanian women are under arms.

FARMERS AROUSED
Those About Newport Form a Protective
Union.

Newport, May 3.—The excitement created by the milk war has reached its climax in the surrounding towns and villages of this section and has resulted in the organization of a farmers' union to protect themselves against prevailing low prices paid by contractors and with but few exceptions has reached every farmer for miles around. The present rate for contractors here has been twenty-five cents for eight and one-half quart cans but by the advanced rate demanded by Massachusetts producers, the farmers have claim they should receive an equal basis for their products. They ask for twenty-seven and twenty-eight cents and will insist on receiving same.

The first sign of a strike was shown yesterday morning by the non-appearance of the usual milk teams at the different stations along the line from Newport to Lyndonville. Coventry, one of the large milk shipping stations, only delivered a few cans, while the daily output is from two to three hundred cans. Orleans shipped none. Sutton only seventy-five in comparison to two hundred and Newport comparatively none. H. P. Hood and Son of Charlton, Mass., who have a milk condenser just established here, report that they have not noticed any falling off in the supply but if the war conditions exist for any length of time they expect that it will affect their business to quite an extent at this point.

MAN BURNED,

Evening

CHARRED REMAINS FOUND

Barn of Mrs. W. H. Manning Destroyed
Last Night and Searchers for
Relics Found the
Body.

Swanton, May 3.—Burned beyond recognition, the charred remains of a man were found early this morning in the ruins of a barn owned by Mrs. W. H. Manning, which was destroyed by fire last night. The firemen went home, knowing that there was anyone missing, and it was while spectators were looking about to see what they could save that the remains were discovered. The features were not recognizable, and the clothes were burned off. The only means of identification was a string of rosary beads.

The theory is that the man slipped into the barn and went to sleep while smoking, and that the fire caught in this way. The barn was looked early last evening, and when the fire was discovered the door was open. A horse and a cow were also burned.

RAILROAD SETTLES

On Basis of 66 Per Cent of the Court
Verdict.

Concord, N. H., May 3.—The case of Florence H. Piper, administratrix, against the Boston & Maine railroad, scheduled for trial in the superior court yesterday, has been settled. The verdict rendered at a former trial by jury in October, 1907, was \$24,416.60, the largest ever awarded in a personal injury suit in this state, and the settlement is understood to be about 66 per cent of the original verdict.

The action was brought for personal injuries received by Harry L. Piper, Feb. 8, 1906, in the passenger train shed at Concord. Mr. Piper was an express messenger, and while crossing the track was run upon by the passenger shifter, knocked down and pushed along the planking for 117 feet. THE PROPOSAL IS TABLED

Street and Water Committees of City
Council Report That It Would Take
\$2,000 on Top of the Present
Appropriations.

The city council had a hard time again last night getting enough of the aldermen present for a quorum, so that they could do business. Alderman Thurston was confined to his home with illness, and Aldermen Ewen and Willey were detained on other business, and it was nearly 8 o'clock before the latter two arrived and the mayor called the meeting to order.

A report of the committee of the whole was read, stating that they had looked over the grounds and the plans of the proposed change of riverbed, and the engineer had staked out Prospect street from Main to the bridge for a three-road street. The committee came to a decision as to the location of the Prospect street bridge when the riverbed is changed, and the engineer was instructed to draw up plans showing the location and the property which will come in for land damages.

The street and water committee, to whom had been referred the question of establishing an eight-hour workday for the employees in these two departments, reported that the time to make such a change as this was when the annual appropriations for the departments were being fixed, as the change would make a difference in the expenses of the departments of at least \$2,000. The resolution, which was presented a few weeks ago, to instruct the committee of the street and water departments to establish an eight-hour day and laid on the table until the committee had brought in a report, was then taken from the table and on motion of Alderman Bond the report of the committee was accepted and the resolution order laid on the table indefinitely.

The board of health and the health committee submitted a report on their investigation of F. A. Cragg's application for a permit to build a smokehouse for fish in his garden, back of his house on Hill street. The report stated that they found nothing objectionable on the property at the present time, but would recommend that Mr. Cragg be not allowed to erect a smokehouse on the property and that he bury no more fish there and keep it free from fish barrels. On motion of Alderman Willey, the report was accepted and the recommendations ordered carried over.

Alderman Brown of
